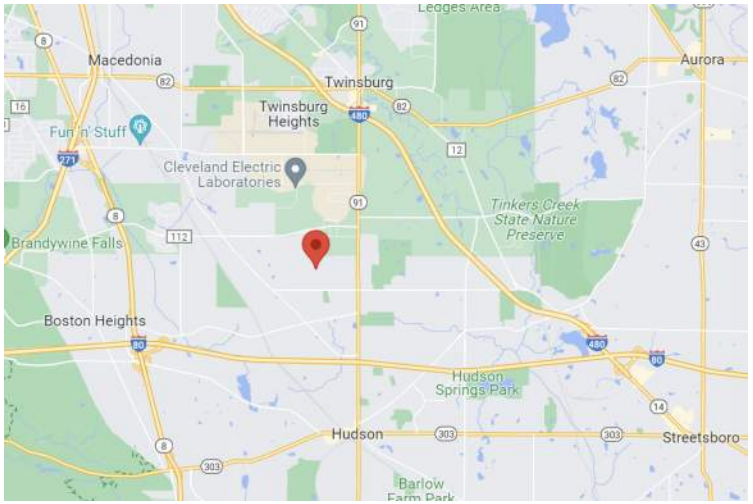
Scott & Patricia Sheffield Pavilion Project

1664 East Haymarket Way
Hudson, OH 44236

VICINITY MAP



General Notes:

All reference in this section are according to the Ohio Residential Building Code.
All areas of the building are to meet or exceed the standards required therein.

Soil bearing design based on 1,500 psf at footing depth. Contractor and owner are responsible for verifying that the above soil conditions exists at the foundation locations. Soil testing is recommended for any areas that have been mined or disturbed previously.

Concrete strength for footers shall be a minimum of 3,000 psf at 28 days.
Concrete for exterior slabs shall be a minimum of 4,000 psf at 28 days with 6% air entrainment.

The structure is designed to be self-supporting and stable after completion. It is the contractors responsibility to determine erection procedures and sequence, and to ensure the safety of the building and it's components.

An approved set of construction documents shall be kept at the site of the work. And shall be available for reference by the building official at all times during working hours while such work is in progress.
