Mayor Anzevino opened the public hearing at 7:37 p.m. All residents and staff were sworn in prior to their testimonies.

Mr. Hannan provided an overview of the legislation, stating that the ordinance establishes future and permitted uses in the South Darrow Road corridor; is not a development plan nor a developer-led initiative; would permit additional commercial uses along the eastern frontage of Darrow Road; would step-down the current industrial uses of District 8 and provide further development opportunity within the planned development, which requires a higher level of design and approval from Planning Commission and City Council. Mr. Hannan further described the opportunities that were provided to the public for feedback, with results attached to the agenda.

Mr. Phil Leiter, 134 Aurora St., expressed concern that the proposed ordinance would create a dense housing scheme that residents do not want and that would threaten downtown viability. He stated that Hudson does not have the population to support two competing market centers and the scientific survey of the Comprehensive Plan is the best gauge of residents' desires in the area.

Mr. Tom Mayor, 7153 Valley View Road, raised a governance concern, arguing that the City Charter designates the Comprehensive Plan as the operative plan to guide the City. He also stated that the subcommittee produced a proposal, which was sent to Planning Commission, that violates the Comprehensive Plan's direction for the Darrowville corridor. He further stated that Council should eliminate residential use, 40,000 sq. ft. grocery, 20,000 sq. ft. retail, and restore it to industrial, office, warehouse, and small footprint retail uses. Mr. Mayor also suggested a review on how so many boards failed to follow the Charter and the Comprehensive Plan.

Ms. Cynthia Curtin, 1102 Cutler Lane, stated that there is an overwhelming opposition to what is being proposed, with the biggest issue being that it is contrary to the Comprehensive Plan and in violation of Codified Ordinance Section 1204.01. She also questioned what the impact on traffic would be, requested a traffic study, and urged Council to vote no and send the proposal back to the Planning Commission.

Ms. Mary Lou Wagner, 7871 Valley View Road, expressed that the Planning Commission exists to evaluate alignment with the Comprehensive Plan, provide technical planning expertise, and conduct structured public review prior to legislation but that the process, as structured by the Charter, has not been followed with the proposed District 11. She asked Council to send the legislation back to Planning Commission and allow them to provide a recommendation consistent with the Charter and Comprehensive Plan.

Mrs. Sarah Norman, 2212 Edgeview Dr., raised the possibility that a planned development in District 11 could immediately trigger the City's growth management allocation for two full years, potentially impacting other significant subdivisions such as Clinton Crossing. She also noted that a traffic study promised by staff would not allow for Planning Commission or public review and comment, based on the timing of its availability and the upcoming vote.

Mr. Bill Klausman, 2746 Blue Heron Dr., questioned why Councilmembers did not want to wait an additional month to allow for Planning Commission review.

Ms. Susan Newman, 2694 Stonebridge Ct., spoke on behalf of the Hudson Heritage Association and urged Council to consider the preservation of character, process, and the long term plan of Hudson. She further stated that the proposed legislation is a departure from the Comprehensive Plan, requested well-planned and thoughtful growth, and to send the legislation back to the Planning Commission.

Ms. Nora Jacobs Snider, 34 Division St., spoke in opposition to the proposed District 11 and asked for it to be sent back to Planning Commission, due to its enormous impact and long legacy.

Mr. Todd Zedak, 16 Hudson Common, stated that residents were uncoordinated but delivered the same message to vote no and send it back to Planning Commission. He further stated that the whole proposal should be dropped.

Mr. Mike Juppe, 5734 Williamsburg Cir., stated his concerns about digging up potentially contaminated soil under ground that has been used for industrial purposes for many years.

Mr. Brezovec thanked all who attended and spoke, at this meeting and via other avenues, and hopes to find a

solution that will be palatable to most.

Ms. D'Eramo stated that the Comprehensive Plan Steering Committee members really helped her understand the intent of the proposed District 11, that she takes into consideration the expertise of specialists in deciding how to vote, acknowledged difficulty in understanding residents stating they are for development but against the current proposal, felt the Planning Commission could have done more due diligence during its 120-day review, and is prepared to move forward with the proposed amendments.

Dr. Bird stated that the proposed District 11 is more restrictive than the current District 8 as it has moved through different boards. He also noted that there were Councilmembers and Planning Commission members who were very familiar with the Comprehensive Plan that were supportive of the legislation. He further acknowledged the impetus for District 11 was the loss of approximately 800 jobs and the need to replace economic revenue that supports what residents value in the City.

There being no further comments for the public hearing, Mayor Anzevino closed the public hearing at 8:24 p.m.

This matter was public hearing held on Ordinance No. 25-146.

7. Public Comments

Mr. Anthony Ravida, 1746 Edgar Dr., stated that his civil suit was started by a false statement and he requested to find a mutual resolution.

8. Correspondence and Council Comments

Dr. Goetz thanked staff for a joint training session between Council, Planning Commission, Architectural & Historic Board of Review, and Board of Zoning and Building Appeals, which addressed roles and responsibilities and standards of conduct.

Dr. Weinstein thanked staff for the road tour that occurred on Saturday, giving Council the opportunity to observe projects taking place around the City.

Mayor Anzevino recognized Ms. Jane Masi as the April 2026 recipient of his Kindness Challenge, nominated by her daughter Reilly, indicated he would meet with her soon to present a recognition certificate. He also congratulated newly sworn-in firefighters and five members promoted to the rank of Lieutenant within the Hudson Fire Department.

9. Report of Manager

Mr. Sheridan thanked Council for participating in the road tour. He also confirmed that the 12 newly hired firefighters will complete training before August, with the goal of achieving 24/7 fire department coverage by Labor Day. He further listed several events taking place during May, including "All About Mom" on May 9, "Fun at First and Main" on May 19, and Middleton Park Public Input Meeting on May 28, where public feedback on desired improvements at the park will be accepted.

Responding to a question from Mr. Brezovec about including mathematical errors as a category of scrivener error, Mr. Pitchford confirmed that his research indicated this is done in other communities and felt comfortable including it here.

Mr. Sutton disagreed, stating it is Council's responsibility as a legislative body to address errors, but could support "numerical typos" as opposed to a broader "mathematical calculation" typo.

Mr. Brezovec amended his motion to add as item 3 under Section (b), "a numerical typo" and re-number the remaining categories. Dr. Weinstein concurred with the revision.

A motion was made by Dr. Bird, seconded by Mr. Brezovec, to approve Ordinance No. 26-64.
