**Subject:** RE: [External]Shed

Hi John,

The new rear elevation and shed look perfect, thank you!

Here is a picture I found that shows the window trim the same width as the batten (white trim and black window). I prefer that over the 6" trim because it looks more mid-century and in line with what we are trying to do.

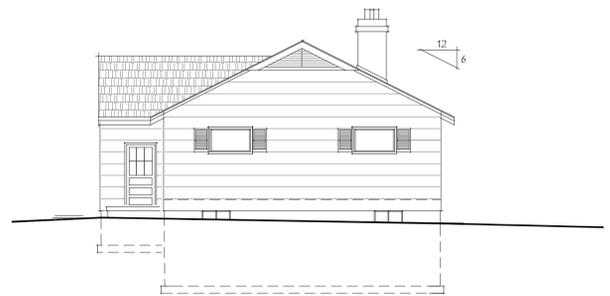

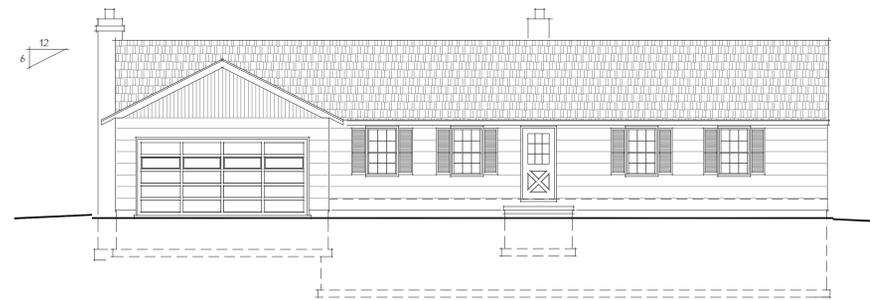

SCOPE OF WORK	
1)	CONSTRUCT AN ADDITION ON THE REAR OF THE HOUSE TO EXPAND THE DINING ROOM, KITCHEN, MASTER BATHROOM and MUD ROOM.
2)	CONSTRUCT A SCREENED IN PORCH and BUILD AN OUT DOOR PORCH/DECK.
3)	REPLACE EXISTING WINDOWS, RESIDE THE HOUSE and REEROOF THE ENTIRE HOUSE.
