Thank you for allowing SB Landscaping to be a part of your project. We're excited to work with you. In order to facilitate a seamless process for both of us, we'd like to outline the terms and conditions under which we provide services.

Scheduling- In the landscaping industry, we work around many variables that can alter, adjust, postpone, expedite and cancel scheduling plans. For this reason, we choose to complete work off a list comprised of all projects sold on a first come first serve basis. Any date or time given by staff members or employees as to when a project will be completed, whether verbal or written should be deemed an estimate or best educated guess and may change without notice. If you have a scheduling preference, we'll do our best to accommodate it, but no scheduling preference is guaranteed. You may inquire when your project is planned to start by calling our main office at 330-922-2844. Our staff will be more than happy to check the list and provide an estimated start date. Keep in mind this information will usually consist of a date range and will not include exact timing. We ask for your patience as we care about each project and want to complete them as quickly as possible.

Design- Design plans and renderings are for artistic use only and are not intended to be used as construction plans. All stated dimensions and design elements are for demonstrative and artistic purposes only and may not be to scale. Landscape design services are provided under a design proposal agreement which states the scope of the design and payment terms. If a design is provided without a design proposal, then all design plans and renderings are the property of SB Landscaping and are not to be used for any purpose without permission. If a design is provided without a design proposal, then copies of the design plans and renderings will not be delivered to you until a deposit is made to move forward with the installation of the project. Once you become a client, whether through accepting a design or installation proposal, the design plans and renderings will be delivered in digital format.

Plants shown in design renderings are based on the size the plant will become throughout seasons of growth. Younger and smaller versions will be planted to provide the maximum opportunity to enjoy the landscape installation before it becomes overgrown.

Plants and materials listed in your proposal are available at the time the proposal or design is created. However, at times these materials are not available when we start a project. For this reason, we may substitute plants or materials as needed based on availability. If a you insist on waiting for a material or plant, no payments are to be withheld and we'll do everything we can to accommodate your request, if the project can be completed in the same time as planned and payment is made in full.
