

Detailed Explanation of Project *

We have seven (7) old double-pane windows in our basement. We would like to change them out to glass block for safety and efficiency purposes.

NUBIO

Intersecting random wave pattern, provides an attractive appearance and moderate privacy.

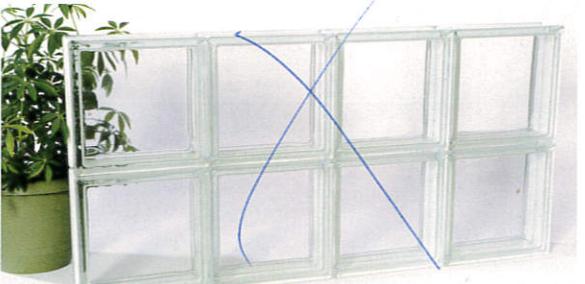

ICE

Random texture built over the Nubio Pattern. More privacy but without a fixed geometric design.

DIAMOND

This repeated diamond pattern features a raised half sphere in each for a stylish look that also allows for privacy.

CLARITY

This see-through block provides a dramatic grid effect, undistorted vision and maximum light transmission.
