Informal Discussion (addition of third front facing garage bay)

Mike Furlong, the homeowner, was present for the informal discussion. Mr. Furlong requested AHBR comments on his plans for a proposed garage addition prior to applying to the Board of Zoning and Building Appeals for a variance request to allow front facing garage doors. The Board discussed the proposed third garage bay addition and an alternate option to extend the existing garage forward. The alternate design would also require a variance request to the front setback. Several AHBR members indicated that if a variance were to be approved, a third bay addition would only be acceptable if substantially set back from the front façade. Other AHBR members indicated maintaining two garage doors was a more appropriate option. Mr. Furlong will consider these comments and proceed with an application for a variance.
