Mr. George Buzzy provided a progress report, discussing the following topics: new clients in 2013, renegotiated lease, outside funding sources, matching contributions from the City, and fundraising and awareness efforts. He described a potential partnership with Kent State University or Hiram College, noting a preference for the incubator to be linked to an academic institution. In addition, he said that TECHudson is exploring a collaborative effort with the Youngstown Business Institute (YBI) to obtain State matching funds through a grant agreement. He spoke of funding partnerships and a support program to provide services and capital to accelerate the growth of early-stage Ohio tech companies.

He provided a financial review, noting that TECHudson's expenses have been cut significantly. He gave examples of how TECHudson has worked collaboratively with YBI and JumpStart. He said that TECHudson needs \$150,000 annually to provide modest services and currently has sufficient funding to cover expenses only through January 2014, emphasizing the need for seed funds to enable continued operations. Mr. Buzzy plans another formal progress report to City

Council at a workshop in late fall of 2013. Mr. Wiedie contributed information, as well. Discussion followed. There was no staff recommendation for Council action at this time.
