<b>Professional Services Total</b>					<b>\$87,220.00</b>	

**Notes and Assumptions**

- (1) Itron's professional services estimates are based on a 3 month / year project duration. Hours are an estimate and will be billed based on
- (2) Professional Services pricing is based on Itron's current understanding of the project scope and is subject to change pending a detailed technical analysis, final system design, and a mutually agreed-upon Scope of Work document.
- (3) Collector / repeater or antenna installation pricing does not include the cost of any site acquisition, lease negotiation, legal fees, environmental studies, zoning, site engineering, structural studies, PE stamps, and permits. Itron assumes that the utility will provide such services. Alternatively, Itron can provide pricing upon request.
- (4) Itron assumes that utility is responsible for installing endpoints, including any work management system to track such installations. Itron assumes distributor is responsible for installation of CCU's and repeaters. No Field Engineering has been included for installation or mitigation; should services be needed they can be provided at \$190/hour.
- (5) Performance requirements are neither anticipated nor guaranteed.
- (6) Itron has included effort to discuss the interface design with the utility and support testing efforts. The customer is responsible to make sure the interface development process is managed by their CIS vendor.
- (7) Travel and expenses will be billed at actual. Itron estimates 16 per diems and 5 airfares.
- (8) Taxes are not included. Prices are in US dollars. Price is valid for 90 days.
