

Ashton Heights[®]

VARIFORM[®]
by  Ply Gem

When it comes to your home, your life and your peace of mind, Variform vinyl siding makes every moment matter. Since 1964, professionals and homeowners alike have trusted Variform for its high quality, durability and beauty, earning it one of the highest satisfaction ratings in the industry.

You can choose from a wide array of styles and one of the largest color palettes in vinyl siding. It's virtually maintenance-free and never needs painting. Plus, Variform is endorsed by Ply Gem Residential Solutions, a division of Cornerstone Building Brands, the nation's leading exterior building products company. The Variform brand has products that make homes beautiful and life easier and offers an impressive limited lifetime transferable warranty.

It all adds up to give you a beautiful home and time to enjoy life's sweetest moments.

This is where your **life** takes place

Choose with Confidence

As a brand that has spanned generations of building and remodeling, Variform has always been defined by new and innovative ideas. The brand was the first to create variegated technology, a double-staggered nail hem, and a rollover locking leg that have resulted in a more dependable, durable and securely fastened siding panel, even in the face of high-velocity winds. We use only the best raw materials and continuously test our products to ensure a lifetime of reliable performance. We're as committed as ever to great products, so you can be confident you've chosen wisely.

Vinyl Siding is a Smart Investment

According to a recent study by REMODELING Magazine¹, homeowners who install vinyl siding, on average, recouped up to 75.6% of the cost, making re-siding one of the top improvement investments a homeowner can make. And because vinyl siding never needs to be painted, you can save thousands of dollars over the life of your home.

Here's How Ashton Heights Works For You

Ashton Heights is a great choice for new construction projects. A double-staggered nail hem makes installation fast and easy. Thick panels stand up to wind and harsh conditions. A detailed finish and deep shadow line create a beautiful painted-wood look without the upkeep.

Never Needs Painting

Looks freshly painted for the life of your home. There's no need for costly maintenance, scraping, caulking and painting. And unlike paint, it won't crack, flake or peel.

Premium Thickness

The .042" thick panels are more rigid and durable. They're state-of-the-art engineered to resist dents and scratches. The 5/8" panel projection enhances the rigidity.

Enduring Color and Texture

A Variform proprietary color process ensures that color is embedded throughout the panel for long lasting beauty. Premium Dark colors receive an extra layer of UV protection using Permahu® technology, which acts like a sunscreen to help prevent fading and weathering. Available in a broad range of decorative colors.
