[Design Subcommittee Minutes - 10.6.17](#)

Mr. Hannan introduced the case.

Mr. Dave Mitchell representing Barlow Road Holdings was present for the meeting and discussion regarding this application.

Mr. Mitchell reported that application has been made with the Army Corp of Engineering to relocate approximately 150 feet of the intermittent creek further south on the property which will mitigate one-half acre of the wetlands. In response to questioning about parking Mr. Mitchell reported that 18 spaces are required by the code and the plan is to build 20 spaces.

Mr. Mike Wolwant of Wolwand Engineering addressed the storm water planning. He stated that the outlet structures will be modified on the existing ponds, additional ponds or changing the width or depth of the current ponds will not be needed. There is an existing culvert pipe under the driveway that will be used.

Discussion took place regarding the fire lane around the building. Questions will be directed to Fire Marshal Kasson regarding possible modification to the length of the fire lane. Mr. Mitchell stated that the fire lane will require a curb cut on Barlow that will have signage stating 'Emergency Vehicles Only'.

Mr. Hannan stated that discussion regarding the sidewalk requirement has centered on Barlow Road Holdings contributing funds to the planned project that will run on the North side of Barlow Road from Rt. 91 to Terex Road.

A public hearing was held:

Ms. Bobbi Becker residing at 1148 Barlow Road stated that the creek sometimes has massive amounts of

water that is eroding the creek. Ms. Becker also expressed concerns with relocating the creek and would like an additional retention pond.

Mr. Dale Williams residing at 1298 Barlow Road spoke to his concern that this residential neighborhood will be surrounded by a bus garage, a nursing home that never shuts down and now another nursing home. He also stated that the creek is eroding and expressed concern that the proposed changes will contribute to further erosion. Mr. Williams questioned if the fire access road going all the way around the building was necessary, if the lighting on the East side of the building would take the neighborhood into consideration and if there would be a generator and how often it would be tested.

Mrs. Sue Williams also residing at 1298 Barlow Road requested that the developers keep the neighborhood in mind as plans are made. Specifically Mrs. Williams requested that the project be as far west as possible with environmentally friendly lighting pointed down and that smoking areas be as far as possible from the residents.

Ms. Shannon Casey residing at 1330 Barlow Road expressed concern that this project will dwarf the residential homes in the neighborhood and requested that the planning commission consider buffers to stop the encroaching on the developments.

Chair Kagler closed the public portion of the meeting.

The Planning Commission addressed comments raised during public meeting.

After further discussion by the Planning Commission, Mr. Harvie made a motion seconded by Mr. Anglewicz to approve the conditional use, subject to findings by Mr. Vazzana.
