

Leadership Hudson

Project Proposal Class of 2014

Introduction: creating engagement

- We're the Leadership Hudson Class of 2014
 - Our team has two project proposals:

- Alumni Association

- The Leadership Hudson Alumni Association provides a development platform for *current and future* Hudson leaders
 - Team: Daniel Bestic, Barbara Bos, Diane James, Margot McGimpsey, Mark Richardson, Rob Strachan and Hoyte Wilhelm

- Solar Panel Project

- The installation of solar panels at Barlow Community Center to further our community's "green" initiative
 - Team: Greg Anglewicz, Patrick Bright, Derek Cluse, Rhonda Kadish, Kerri Keller, Peter Stokes, and Casey Weinstein

Introduction: leaving a legacy

- Project Proposal Benefits:
 - Driven by common interest to build a better future
 - Designed to create lasting benefit within our community

Leadership Hudson Solar Panel Project

Mission Statement

- Bring clean, renewable energy to the City of Hudson, to educate the community, and to invest in our future.

Project Summary

- The project will involve the acquisition and installation of solar panels at the Barlow Community Center.

41 South Oviatt Street

Key Benefits

- Reduce Hudson's carbon footprint and fulfill renewable energy requirements and green initiatives;
- Partner with schools to integrate renewable solar energy into curriculum;
- Generate clean energy power for the the Barlow Community Center while returning approximately \$2,000 to the city in energy savings;
- Position Hudson as a community leader in renewable energy;
- Introduce an additional renewable energy source to the city;
- Attract new residents and businesses that value progressive energy & forward movement.

Statement of Work

- Revenue generation: Generate revenue through fundraising and grants.
 - Sponsorship, “Adopt a Panel” program and grant funds.

- Marketing: Generate community interest and city support.
 - Meetings with key officials and community stakeholders;
 - Outreach efforts by class, including Green on the Green, articles in various Hudson publications, corresponding promotion through the 2014 Class “Alumni Association”.

- Education: Work with area schools to develop exciting and appropriate curriculums to teach students about renewable energy.

Project Timetable

| | City Council Presentation | 5/13/2014 |
| Phase 3 | Installation | 9/15/2014 – 10/14/2014 |

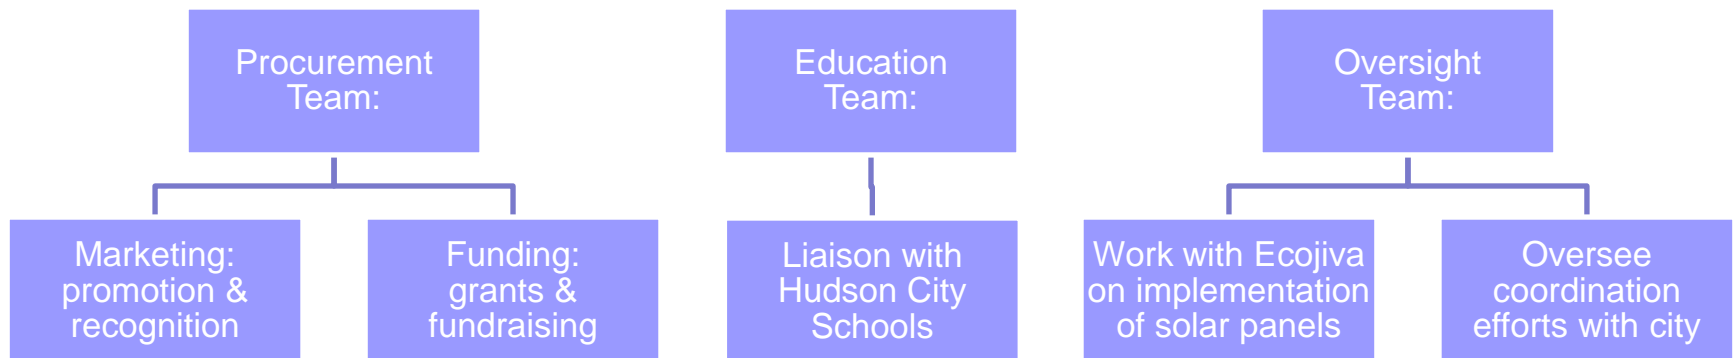

Budget

- Overview of projected Expenses:

| Expenses | Budget |
|---------------------------|--------------------|
| Solar panels | \$47,500 |
| Sponsor plaque | \$1,500.00 |
| Recognition bricks | \$460.00 |
| Miscellaneous | \$500.00 |
| Total Cost/Revenue | \$49,960.00 |

Key Personnel

- Provide an organization chart of the project management team.

Endorsements

- “We are excited about the possible curriculum integration that can take place with the solar panels at Barlow Community Center. From our third grade science classrooms where we examine renewable energy sources to our middle school math classrooms that can analyze the data and cost savings, and our high school AP sciences that complete science concept plans, this project provides a real world context for our classrooms.”

**Christina Wooley, N.B.C.T.
Curriculum Coordinator
Hudson City Schools**

Endorsements

- "The Leadership Hudson 2014 class project of installing solar panels on Barlow Community Center is smart and will inform, instruct, and benefit Hudson. I support this project and encourage all others to do likewise."

William (Bill) Currin
Mayor, City of Hudson
