HUDSON STATION PHASE I DESIGN STANDARDS SECTION II-1(E) SIGN PLAN

So as to insure the appropriate level of design consistency for this development, the Owner, Reveille I LLC, hereby adopts the following sign plan:

1. As a general rule, all signs shall be located within the areas designated on Landlord's City-approved architectural plans as a "signable area".
2. Unless the construction of an occupant's signs are part of the occupant's uniform corporate branding, signs are encouraged to be constructed of individual raised letters mounted on a raceway and/or otherwise affixed to the building in a manner approved by Owner.
3. Unless the materials and finish of an occupant's signs are part of the occupant's uniform corporate branding, sign letters are encouraged to be constructed out of cast or cut metal with a natural, non-reflective finish.
4. As required by local ordinance, all signs shall be externally illuminated by building standard fixtures utilizing building standard bulbs during building standard hours.

On further review, can you remove the hyphen between v-l and send back? Thank you

Steve and Nick,

The revised spec, removing VAPOR LOUNGE and replacing with V – L on the logo is attached. If approved, please send back approval. We will need documentation of landlord and customer approval for the Hudson sign permit.

Thanks,

Steve and Nick,

Attached is the spec and rendering drawing for customer and landlord approval. Please print it out, sign it (if approved) and email or fax back to us so we can submit to Hudson.

Thanks,
