Mr. Scott Angel
City of Hudson
1769 Georgetown Rd
Hudson, Ohio 44236

Dear Scott

Thank you for the opportunity to submit a proposal for work needed on your #1 well. As you know your well needs a liner installed in order to keep native gravel from being sucked up into your pump. The total estimated cost to line your well with stainless steel casing is \$12,000.00. The total estimated cost to line your well with black steel casing is \$8,500.00. The labor estimate for both is \$6,500.00.

Please let me know if we may be of further assistance.

Sincerely yours,

Ohio Drilling Company
