

It's what to eat!

PROJECT OVERVIEW – 36 S. MAIN ST.

The current Hudson Yours Truly building was renovated in the early 1980s. The structure was built in the depression era as an automotive industrial building and later converted to YT with a colonial-style theme. The Colonial-style building thrived for decades. However, over time the structure and equipment have declined significantly.

Yours Truly has determined that a top-to-bottom overhaul is necessary for the long-term preservation and success of the building. The proposed renovation complements the building's original industrial design. Yours Truly plans to expose and preserve all existing original structural components and materials. The industrial theme of the restaurant will be similar to Yours Truly's new Solon location, as well as to the recently renovated Chagrin Falls location (photos included below).

As a final note, the restaurant industry has evolved dramatically since the implementation of the Colonial-style diner. The effects of COVID-19 have enhanced the need to provide more open-air seating and social distancing. The proposed design of the new Hudson Yours Truly will better facilitate this open-air and spacious environment. Yours Truly also plans to implement touchless purchase, a drive-through pickup window, curbside delivery—all managed from a user app. The new YTR Kitchen and Bar will also accommodate the increased demand for private parties.
