Subject: Dog run at Hudson Springs

To the directors of the Hudson Parks board:

I am writing to you to request that you investigate the possibility of using public funds to improve the "dog run" at Hudson Springs Park. Hudson Springs is a wonderful park that is used by many people, young and old, on a daily basis.

Many of us who own dogs take advantage of walking them around the lake. There is a beautiful area that is designated for a dog run but unless it is enclosed by a fence, running our animals would be extremely dangerous. It is also adjacent to the turnpike which is an added danger. If any of you own dogs or have frequented an established dog park, you know that the area is always enclosed so that the animals can play and run safely.

I know the dog owners of Hudson would appreciate this effort. So much has been done at Hudson Springs for recreational purposes and having a safe, enclosed dog run would make the park even better.

I appreciate you taking the time to investigate this request.

Sincerely,

Patricia H. Laflin
