109 STREETSBORO STREET

317

The age of this house is uncertain, although its owner in 1890 considered it, even then, to be an old house. The foundation is rough sandstone; it has many additions, including a barn moved from the Maple and College Street area, now the east wing. The first floor front windows have been changed; the pedimented window lintels are matched on the bay window on the east side. The front facade has been widened by a west side

addition; a porch runs across the original facade and the west addition.

The house is known locally as the Seese house, for Charles F. Seese, owner in 1890, who was superintendent of Hudson public schools and, during his two terms in the Ohio Legislature, was instrumental in establishing the public school system in Ohio.

109 E Streetsboro Street
Hudson Ohio 44236

Understanding and respecting the historical context of the Village of Hudson, windows are an important part of the fabric of any existing building. They reflect the technology and fashion of the era in which the house was built. In this case that was 1883. Along with the homeowner and builder, our office is dedicated to rehabilitating this home and maintaining the integrity of the existing structure. Our proposed work is not only enhancing the original house, but repairing the barn structure that was added in the late 1960's, updating and recladding a poorly added addition on the north end of the home, and modifying the landscape to pronounce a house that is the gateway to the historical village as you head westbound on Streetsboro Street.

The windows throughout the house have experienced putty glazing that has dried out and deteriorated allowing water to infiltrate, stiles and rails of the sashes are loose and disconnected, windows are non-operable because the ropes and pulley mechanisms are broken, they have been painted shut over time, some have no hardware or locking mechanisms or have broken panes, and most windows are covered in storm windows because of air infiltration and low insulation values. There are windows that are not original to the house that we are proposing removing and replacing with something more historically correct. With our revised floor plans and bedroom locations there is a concern for emergency egress as well. Today's building code also requires windows to be tempered if the sill sits 16 inches or less above the finished floor, or near a tub or shower. Many of the windows on the second floor will be required to be tempered.

We are asking for new windows to address all of these issues and bring the home up to modern day efficiencies, codes, and standards. In addition to replacing the windows, we will be removing the storm windows, and repairing and repainting all existing trim and existing shutters, rejuvenating its historical presence back to the late 1800's.

With a history of working with historical villages, the National Park Service, and State Historic Preservation Office, we understand and respect the intent of every historical project. When replacing windows we focus on size, shape, pane configuration, type, location, and trim details. For this specific project we are proposing using the Pella Architect Reserve for the seven specific windows that address Bradley Road and Streetsboro Street. We are also proposing the Pella ProLine series for all of the other windows. Besides the four windows highlighted on our drawings, located on the north (rear) elevation, all window sizing and detail is going to remain the same. I have placed some bullet points below that highlight the Architect Reserve Series that we have had much success with in the past.

- Pella's most historically authentic line of wood window
- Designs foundationally and aesthetically historical
- Historical depth of putty glazed profiles
- Through-stile construction
- Design allows the cladding to create crisp lines that reflect traditional butt jointery
- Equal stile lines and a check rail that reflects historic design
- Sash lugs that mimic what was done historically but retain the tilt feature of a modern window
- Historically authentic window that retains current window technologies and energy benefits

Thank you for your time and consideration.

Thank You For Your Interest In Pella® Products

PELLA WARRANTY:

Pella products are covered by Pella's limited warranties in effect at the time of sale. All applicable product warranties are incorporated into and become a part of this contract. Please see the warranties for complete details, taking special note of the two important notice sections regarding installation of Pella products and proper management of moisture within the wall system. Neither Pella Corporation nor the Seller will be bound by any other warranty unless specifically set out in this contract. However, Pella Corporation will not be liable for branch warranties which create obligations in addition to or obligations which are inconsistent with Pella written warranties.

Clear opening (egress) information does not take into consideration the addition of a Rolscreen [or any other accessory] to the product. You should consult your local building code to ensure your Pella products meet local egress requirements.

Per the manufacturer's limited warranty, unfinished mahogany exterior windows and doors must be finished upon receipt prior to installing and refinished annually, thereafter. Variations in wood grain, color, texture or natural characteristics are not covered under the limited warranty.

INSYNCTIVE PRODUCTS: In addition, Pella Insynctive Products are covered by the Pella Insynctive Products Software License Agreement and Pella Insynctive Products Privacy Policy in effect at the time of sale, which can be found at Insynctive.pella.com. By installing or using Your Insynctive Products you are acknowledging the Insynctive Software Agreement and Privacy Policy are part of the terms of sale.

ARBITRATION AND CLASS ACTION WAIVER ("ARBITRATION AGREEMENT")

YOU and Pella and its subsidiaries and the Pella Branded Distributor AGREE TO ARBITRATE DISPUTES ARISING OUT OF OR RELATING TO YOUR PELLA PRODUCTS (INCLUDES PELLA GOODS AND PELLA SERVICES) AND WAIVE THE RIGHT TO HAVE A COURT OR JURY DECIDE DISPUTES. YOU WAIVE ALL RIGHTS TO PROCEED AS A MEMBER OR REPRESENTATIVE OF A CLASS ACTION, INCLUDING CLASS ARBITRATION, REGARDING DISPUTES ARISING OUT OF OR RELATING TO YOUR PELLA PRODUCTS. You may opt out of this Arbitration Agreement by providing notice to Pella no later than ninety (90) calendar days from the date You purchased or otherwise took ownership of Your Pella Goods. To opt out, You must send notice by e-mail to pellawebsupport@pella.com, with the subject line: "Arbitration Opt Out" or by calling (877) 473-5527. Opting out of the Arbitration Agreement will not affect the coverage provided by any applicable limited warranty pertaining to Your Pella Products. For complete information, including the full terms and conditions of this Arbitration Agreement, which are incorporated herein by reference, please visit www.pella.com/arbitration or e-mail to pellawebsupport@pella.com, with the subject line: "Arbitration Details" or call (877) 473-5527. D'ARBITRAGE ET RENONCIATION AU RECOURS COLLECTIF ("convention d'arbitrage") EN FRANÇAIS SEE PELLA.COM/ARBITRATION. DE ARBITRAJE Y RENUNCIA COLECTIVA ("acuerdo de arbitraje") EN ESPAÑOL VER PELLA.COM/ARBITRATION.

Product Performance Information:

U-Factor, Solar Heat Gain Coefficient (SHGC), and Visible Light Transmittance (VLT) are certified by the National Fenestration Rating Council (NFRC). Manufacturer stipulates that these ratings conform to applicable NFRC procedures for determining whole product performance. NFRC ratings are determined for a fixed set of environmental conditions and a specific product size. NFRC does not recommend any products and does not warrant the suitability of any product for any specific use.

Design Pressure (DP), Performance Class, and Performance Grade (PG) are certified by a third party organization, in many cases the Window and Door Manufacturers Association (WDMA). The certification requires the performance of at least one product of the product line to be tested in accordance with the applicable performance standards and verified by an independent party. The certification indicates that the product(s) of the product line passed the applicable tests. The certification does not apply to mulled and/or product combinations unless noted. Actual product results will vary and change over the products life.

For more performance information along with information on Florida Product Approval System (FPAS) Number and Texas Dept. of Insurance (TDI) number go to www.pella.com/performance.

For more information regarding the finishing, maintenance, service and warranty of all Pella® products, visit the Pella® website at www.pella.com
