Ms. Roberts stated that she spoke with 28 different cities, of those 28 cities all but 3 cities backcharged for their services. Ms. Roberts summarized her findings with regards to charge back fees other communities charge along with the estimated cost savings the City would have if we backcharged specific areas.

Ms. Roberts stated that in regards to running and biking events, other communities have specific routes that must be used and have special fees for these types of events. Ms. Howington stated that having designated routes provides more safety.

Ms. Howington summarized Council's consensus as follows: specific routes for running and biking events will be implemented in 2016; in order to make organizations aware of the costs associated with their events, staff will begin to supply organizations with an outline on how much the event is costing the City; and if organizations want to expand for 2016, then they will be responsible for additional costs. Ms. Howington suggested that the additional costs be based on 2014 costs rather than 2015 costs. Also, staff will put together an application fee schedule and bring it back to Council for approval.

This matter was discussed.
