AN ORDINANCE AMENDING SECTIONS 1042.03 AND 1042.04 OF THE STREETS, UTILITIES AND PUBLIC SERVICES CODE REVISING SEWER RATES FOR THE MUNICIPALITY.

Executive Summary: This ordinance will amend the City's sewer rates.

Legislative History

Sewer rates were last adjusted by Ordinance No. 14-61. The effective date of the last increase was the July 10, 2014 due date.

Purpose & Explanation

The 2015 Five-Year Plan projected the need for a 5% sewer rate increase.

A 5% increase will raise the base sewer rate from \$8.86 to \$9.30 per 100 cubic feet and the availability charge will increase from \$10.43 to \$10.95. The average monthly residential sewer bill for 2014 was \$63.57 so the increase would average \$3.18 per month. The flat rate for well-water customers (all other users of the sanitary sewerage system) will increase from \$67.54 per month to \$70.92 per month.

Timing Considerations

This Ordinance will receive three readings (May 19, June 2, and June 16), and a public hearing will be scheduled for June 2, 2015. With passage on June 16, 2015, the increases would not be effective until the August 10, 2015 due date.

Fiscal Impact

X Appropriation Not Required.

Suggested Action

Staff recommends approval of a 5% increase in the sewer rates.
