Legislative History

Ord. No. 15-183, to amend City's Pay Range Structure for 2016, passed November 17, 2015.

Ord. No. 16-121, to amend City's Pay Range Assignments Schedule, passed July 19, 2016.

Purpose & Explanation

This Ordinance updates the current classification plan established in 2000 by flattening the Pay Range Assignments from 14 letters with between 10 and 16 steps per letter to 3 pay bands with a minimum and maximum rate for each pay band. The pay bands will be divided into a Seasonal, Support Staff, and Supervisors band. The goal of this update is to move the City away from an entitlement program and into a pay for performance environment with the added benefit of creating flexibility to modify workload and compensation as the City continues to look for ways to streamline operations.

This Ordinance also creates an incentive plan for all regular full-time and part-time employees. The Incentive Compensation Plan is a method to reward employees who make a significant contribution to the City, through a work initiative above and beyond their current job duties which has a defined start and end date, while not adding to the employee's base rate. The objective is to recognize employees for excellence through continuous improvement and productivity efforts through various forums. The award of an incentive payment will be determined by an Incentive Compensation Plan Review Board established by the City Manager or their designee.

The purpose of updating the non-bargaining pay classification and creating the incentive compensation plan is to move the City towards a performance based compensation model and to provide the flexibility to use compensation to focus and direct employee efforts in a cost-effective manner. Performance raises will generally range from 0% to 3% and incentive compensation will range from 1 to 5 vacation days, or the monetary equivalent. An incentive reward can only be received once per calendar year.
