

April 17, 2025
Docket No. 2025-247

Meeting Date:
April 17, 2025

Location:
78 Aurora St (Historic District)

Parcel Number
3201333

Request
A variance request for a side yard setback.

Applicant:
Rebecca Pantuso, Pantuso Architecture

Property Owner:
David and Lisa Lemmens

Zoning:
D4 – Historic Residential Neighborhood (Historic District)

Case Manager:
Lauren Coffman,
Associate Planner

Location Map, City of Hudson GIS

Request:
A variance request of five (5) feet from the required side yard principal structure setback of eight (8) feet, resulting in a side yard setback of three (3) feet pursuant to section 1205.07(d)(6)(B)(1), "Property Development/Design Standards – Setbacks" of the City of Hudson Land Development Code in order to build an addition.

Adjacent Development:
The site is adjacent to residential development to the south, east and west. The site is adjacent to Western Reserve Academy to the north.

Project Background

The property is located in District 4 – Historic Residential Neighborhood and is situated on Aurora Street within the Historic District. The lot is approximately 0.33 acres and the house on the property was built in 1880. The owners purchased the property in 2015.

The applicant is requesting to construct a 18ft 10 in x 36ft 5 in (approximately 342 sq. ft) addition on the property. The addition would add a mudroom to the rear of the house and attach to an existing detached garage, creating an attached garage. The City of Hudson's Land Development Code has the following regulation relative to setbacks for properties located in District 4 –

- *1205.07(d)(6)(B)(1) – Minimum side yard setback. Single-family uses: eight (8) feet.*

Attached garages have an increased setback requirement than detached garages and other accessory structures. Detached garages are required to maintain a 4 ft setback, while attached garages are required to maintain a minimum 8 ft setback. Therefore, the applicant is requesting a side yard principal structure setback variance of five (5) feet from the required eight (8) foot minimum setback resulting in a side yard principal structure setback of three (3) feet in order to build an addition.

The applicant states that the proposed addition would be the most beneficial use of the home. Additionally, the applicant states that having an attached 2 car garage and elevator access would allow the property owners to age in place.

Considerations

Section 1204.03 of the Land Development Code describes the standards for review of variance requests. These standards are listed below, along with staff findings to assist in your determination. All findings are subject to additional testimony presented to the Board during the public hearing:

1. Whether the property in question will yield a reasonable return or whether there can be any beneficial use of the property without the variances:

The property in question will yield a reasonable return and there can be beneficial use of the property without the variance as the existing home is approximately 2,920 square feet (per Summit County property card). Additionally, the existing home currently has a functioning detached garage.

2. Whether the variance is substantial:

The variance would represent a 63% deviation from the code requirement.

3. Whether the essential character of the neighborhood would be substantially altered or whether adjoining properties would suffer a substantial detriment as a result of the variances:

Staff notes the following:

- The lot is 0.33 acres and located within a dense portion of a historic neighborhood. Based on such, any variance request would be impactful.
- Staff notes that the construction of the proposed addition would attach the existing one story detached garage to the main structure, thereby creating an additional

principal structure setback issue; however, would not alter the existing garage's footprint or height.

- The existing detached garage is currently a nonconforming structure with a setback of approximately three (3) feet from the eastern property line. The minimum allowable side yard accessory structure setback in any district within the city is four (4) feet.
- 4. Whether the variance would adversely affect the delivery of governmental services such as water and sewer:**
The variance would not impact the delivery of governmental services.
- 5. Whether the applicant purchased the property with knowledge of the requirements.**
The existing regulations were in effect when the owners purchased the property in 2015.
- 6. Whether the applicant's predicament can be obviated feasibly through some method other than a variance:**
Staff notes the applicant could propose a lighter connection of just a breezeway to help separate the garage from the main mass.
- 7. Whether the spirit and intent behind the requirement would be observed and substantial justice done by granting the variance.**
The Board of Zoning and Building Appeals shall weigh the above factors, along with given testimony in order to make this determination.

Additional Approvals

The proposal would require the following:

- A design review with the Architectural and Historic Board of Review.
- Administrative site plan approval.

Type of Hearing Request

Type of Request:*

Variance

Year Property Purchased:*

2015

Code Required Regulation (please indicate feet, s.f. or height)*

1205.07 (6) B.1.

**Requested Variance (please indicate the amount of the variance in feet, s.f. or height)***

5.06' Side yard setback

Resulting Set-Back (please indicate feet, s.f. or height)*

Existing Garage is 2.94' from side yard

Explanation of Request and Justification:*

We would like to add to an elevator to the multi-level home and attach the garage to allow clients to age in place.

Supplemental Information for Determining Practical Difficulty

The property in question will yield a reasonable return and there can be a beneficial use of the property with the variance because:*

An elevator is an ameninty that allows this resident and future residents to age in place.
Attaching the garage that makes navigating Ohio winters safer.

The variance is

substantial

Describe why the variance is substantial or insubstantial*

The existing garage is currently only 2.93' away from the side yard setback. We would be asking for more than a 50% variance to attatch this structure to the house.

Would the essential character of the neighborhood be substantially altered?*

no

Explain why the request is the minimum amount necessary to make reasonable use of the property or structure(s):*

We are not proposing to add house within the setback. We want to attach to the already built garage structure.

Would adjourning properties be negatively impacted?*

no

Describe how the adjacent properties will not be affected.*

There is an existing fence line that is more than the 8'-0" away from the existing garage making little to no impact on the neighbors.

Will this request adversely affect public services (mail, water, sewer, safety services, etc.)

no

The situation cannot be feasibly solved by means other than a variance. Explain:*

We believe the alternate solution would negatively impact the neighbor and would not increase this property's value.

The spirit and intent behind the zoning requirement would be observed and substantial justice done by granting the variance. Explain below:

Each property is different and if the board visits this site, I think they will understand the benefit.

The circumstance leading to this request was not caused by current owner. It was caused by:*

The Owner that built the current 1960's addition on the rear of the home.

List any special circumstances particular to the property/lot (i.e.: exceptional irregularity, narrowness, shallowness or steepness) these circumstances are:*

The beautiful historic home is set on a property that is tight with a high degree of topography to navigate. In an ideal world the 19*19 garage (at basement level) would be larger and easier to navigate. We hope to alleviate the hardships allowing our clients to age in place.

BZBA Meeting Information

The following persons are authorized to represent this application with respect to all matters associated with the project*

Rebecca L . Pantuso

By checking this box, I do hereby certify that I am authorized to represent the property owner and to accept any conditions that the Board may impose.*

By checking this box, I do hereby certify that the information to the City of Hudson in and with this application is true and accurate and consents to employees and/or agents of the City of Hudson entering upon the premises of this application for purposes of inspection and verification of information pertaining to the application, and if this application is approved, to verify conformance to requirements and conditions of such approval. I acknowledge that City reviews or approvals do not absolve the subject property from deed restrictions, easements, or homeowner association covenants, restrictions, or regulations regarding structures and uses on the property. *
