Notes

- Work will be performed in two phases. The two inside lanes will be poured first followed by the two outside lanes.
- Prices and size are based on the area that was marked. If additional roadways need to be removed due to undercutting it will be billed at the unit price.
- As discussed on site, the city will set up the detour for Lennox.
- Remove and replace marked section of roadway includes the following items.
 - Saw cutting.
 - Pavement removal.
 - Subgrade compaction.
 - Adjust valve boxes and remove one.
 - Install dowel bar baskets and hook bolts.
 - Pour 10" of QCMS concrete.
 - Concrete cylinders.
 - Winter protection includes hot water, visqueen, and concrete blankets.
 - Replace dashed, channel, and double yellow lines removed during this work with water-based paint. Please note that we cannot guarantee how well the water base paint will adhere to the new concrete in cold temperatures.

- Backfill, topsoil, seed, and mulch disturbed areas.
- Contingency items are to be used on an as needed/ requested basis.
- Traffic loops are in the contingency due to not knowing if the loops were still active or working off cameras. If the loops are added the loops will need to be added to the base bid price.
- Undercutting / removing and replacing unsuitable subbase is as needed for any unsuitable materials that may be encountered and for any sections that may have been undermined during the break.
- Underdrain is quoted for 4" and 6" since we are not sure what, if anything, is currently installed. Fabrizi will match the current material.
- The prices do not include bond, permits, or fees
- Price is good for 30 days.

Thanks for the opportunity and please let me know if you have any questions.
