Section 1205.14 District 11: South Darrow Road Corridor

a) Purpose:

- 1. This district contains a mix of commercial and light industrial land uses to benefit the income and property tax base of the community. The district also allows for retail and service uses intended to provide support amenities and services to the adjacent commercial office and industrial districts. The district serves as a transition between the office and industrial uses to the south and the retail and service focused area of District 7 to the north. Curb cuts along Darrow Road are significantly limited with a strong internal network of pedestrian and vehicular access between uses. The existing, developed nature of District 11 with limited environmental constraints allows for more concentrated development.**
- 2. The district provides the opportunity to create a transformational mixed use district through a Planned Development. A mixed use development will help support a significant income tax generator and provide expanded amenity uses to support the larger office and industrial uses in the surrounding office and industrial parks.**
