Re: Stow Road & Middleton Road

Dear Brad,

Please be advised that we have reviewed the current traffic data and observations from Lt. Grams from the Police Department regarding the above referenced intersection. Please be advised of the following:

1. Based upon the data collected, we do not see enough pedestrian activity to justify the placing of NTOR (No Turn On Red) signs at Stow & Middleton.
2. It is our belief that the introduction of NTOR signs will not improve safety at this location due to the lack of pedestrian volume crossing at the signal.
3. I believe the effort by Lt. Grams and his staff will provide the presence needed to attain the safety we expect at that location. We should review this location again if the Police Dept. determines any future safety issues that may need to be addressed using some additional engineering solution.

If you have any questions, please do not hesitate to call me.

Very truly yours,

TMS Engineers, Inc.

Michael W. Schweickart, P.E., PTOE
