Note: Colors may be slightly different from their appearance in this brochure. Make final color selections using actual product samples. Color availability may vary by market. See your Alside Sales Representative for details.

Our darker siding colors are fortified with ChromaTrue® technology for superior color retention. This advanced copolymer compound provides long-term color stability and better performance on darker colors.

THE ART OF THE MIX

There's no need to settle for siding and trim that almost match. Alside's ColorConnect® Color Matching System offers smart solutions for every design approach. ColorConnect standards have been painstakingly applied to select Alside products to ensure you are making tasteful color choices with enduring aesthetic value and the custom look you desire.

Whether it's a rich color that draws your eye to an interesting architectural detail, or neutral hues applied to a historic home, the Alside ColorConnect Color Matching System helps you successfully match the color of your siding with other Alside exterior products and accessories.

CURATED COLORS *for* EVERY HOME:

Classically Styled to Complement Your Architecture

CREATE CUSTOM APPEAL WITH BOLD NEW COLORS

When it comes to exterior design, color is the key in achieving your ideal finished look. The more color options, the easier it is to transform any home from basic to beautiful with eye-catching siding and trim.

Alside Board & Batten features a curated color palette with deeper hues and greater design possibilities. For a dramatic effect, pair a darker siding such as Charcoal Smoke with trim colors in Storm or Deep Moss to create tone-on-tone elegance. Or choose a contrasting accent color in Antique Parchment or Cast Iron for crisp, defining lines. From classic to contemporary, our extensive color palette delivers high-end quality and refined style.

QUICK SPECS: 7" profile features a 5-1/2" board and 1-1/2" batten strip

Raised batten strip has a 3/4" projection

Heavy-duty panel thickness

Ideal as a whole-house exterior or accent for gables and architectural areas

28 colors with a light roughsawn texture

Lifetime limited warranty – see warranty for details*

ChromaTrue®

DARKER COLORS STAY TRUE!

Our darker siding colors stay luxurious and true, thanks to ChromaTrue® technology. This advanced copolymer compound provides long-term color stability and better performance on darker colors.

HOME VISUALIZER

See the finished look before the work begins! Our Alside Visualizer lets you create multiple exterior designs with just the click of a mouse. Simply select a house style – or upload a photo of your own home – and choose siding profiles, accents, soffit and trim, along with color options for doors, roofing, shutters and more. Visit www.alside.com/color-design to get started today.

CHARTER OAK PREMIUM VINYL SOFFIT

Exceptional Quality, Durability and Style

PREMIUM APPEARANCE

The look of custom-milled soffit has gently rounded "board" edges and an elegant 3-1/3" exposure width. Its finely textured, low-gloss finish looks and feels like painted wood and has deep, realistic shadow lines. Plus for greater design flexibility, it's available in a full selection of architectural colors.

SUPERIOR RIGIDITY

Featuring the superior rigidity of the TriBeam design, Charter Oak soffit panels are performance-engineered to stay flat and level like solid wood soffit. It's beauty ordinary vinyl soffit can't provide.

OUTSTANDING DEPENDABILITY

Wood soffit looks good, but it can warp and rot after exposure to dampness normally found at eaves and porch ceilings. Charter Oak soffit is made with weather-resistant vinyl, so rain and humidity don't cause problems.

EASY-CARE CONVENIENCE

Dampness also produces a tough cleanup problem – mold and mildew stains. But with Charter Oak, simply wash panels occasionally with a garden hose to remove most airborne dust and dirt and restore the like-new beauty. No more sanding, staining or painting.

BEAUTIFUL VENTILATION

Aeration openings are hidden in the grooves of Charter Oak vented soffit panels. This means exceptional beauty . . . plus the continuous airflow needed to keep attics cool and dry.

Virtually invisible vents allow provide essential airflow without detracting from the beautiful appearance.
