Addition (Enclosure of existing porch)

Ms. Krickovich introduced the application by displaying photos of the house, describing the

project, and reviewing the staff comments and recommendations including the location of the proposed enclosed porch.

Mr. Chris Lachman, CSL Consulting, and Mr. Rick Brown, architect, noted the porch presently has sliding glass doors and this project will enlarge the size of the porch. Mr. Brown reviewed: The history of the house, the owners love and care for the historic character of the house, the various additions to the house, and this proposed addition which attempts to be consistent with the existing house. Mr. Lachman stated the proposed Pella door as disappearing when opened because the handles can be removed.

The Board, applicant, and staff, discussed: The material cut sheets which will be sent to staff, that the proposal is a large change to the house in the historic district, how the door will function, that according to code a railing will not be needed, the type and style of the siding and trim above the windows and that the vertical siding introduces a new element to the design, that the natural vegetation screening effectively blocks the view of the addition, and the possibility of using larger windows, or a flat panel at the top.

The Board decided to conduct a site visit.

This matter was continued

D. [AHBR 25-353](#) 7487 Darrow Road

Addition (Enclosed Porch)

Ms. Krickovich introduced the application by noting: The unusual lot, that the standards describes this as a wing, and reviewing the staff comments and recommendations.

Mr. Robert Duber, homeowner, was present for the meeting.

The Board, applicant, and staff discussed: That the front door of the house faces Darrow Road, the large garage, that the applicant feels the proposed addition is more appealing than the existing screened area, that screens are the side walls (which was not apparent to the Board or staff prior to this discussion), that the addition could be free standing, that shed roofs have been permitted in the past, and the size and height of the proposed addition.

A motion was made by Mr. Ray, seconded by Ms. Marzulla, that this AHBR Application be approved as submitted with the stipulation that it is all screened. The motion carried by the following vote:

Aye: 6 - Mr. Caputo, Ms. Kenney, Ms. Marzulla, Mr. Ray, Ms. Sredinski and Ms. Manko

Addition & Alteration

Ms. Krickovich introduced the application by displaying elevations, and photos of the house and project, describing the project and reviewing the staff comments and recommendations.

Mr. Lyle Miller, project manager, and Mike Ever, Kline Home Exteriors, were present for the meeting.

The Board, applicant, and staff, discussed: The screened room being framed on a concrete slap, and that one window will be added on the front side of the house near the chimney. Mr. Miller and the Board then: Described changing to the structure, stated that the stone skirting around the house will all be the same height, noted a drawing error is responsible for showing stone around the screen addition, that the front porch overhang is metal, that typical windows in style and grid pattern are required by the LDC, that some of the specification sheets need to be supplied, the type of Hardi-Board that will be used will be tongue-and-groove, and the

dimensions of the screen with an aluminum single cross piece.

Ms. Kenney made a motion, seconded by Mr Ray, to approve with the following conditions: A specification sheet be submitted on the Hardi-Board, the grid pattern of the front windows match the typical house window, the stone foundation maintain the same elevation around the house, and the screened addition frame plan be submitted.
