

Environmental Awareness Committee (EAC) 2026 Goals

July 6, 2026

The EAC presented annual goals to City Council in February 2026 and later received Council direction to further prioritize the goals. The EAC has confirmed the following priority goals.

Goal	Metric
1) Environmental Education	
Collaborate with Hudson High School representatives to develop a recycling education campaign.	Number of students that participate.
2) Environmental Engagement	
Host community workshops 6 times annually.	Number of workshops held.
Create a food waste reduction program.	Reduction program created.
3) Land Management	
Establish a set of land best management practices.	Best management practices submitted to City Council.
4) Council Advisement	
Review the City capital budget to identify potential environmental risks with an emphasis on energy related activities.	Memo on potential environmental risks submitted to City Council.
Advise on the planned public recycling area at the City public works facility.	Memo on potential design considerations submitted to City Council.

Potential Workshops

- ☐ Bee Houses
- ☐ Composting
